

Organic extra virgin Olive Oil Kalamata Greece

Bio Olivi is a high quality extra virgin olive oil, that **brings together traditional and modern** production methods.

The **100 % koroneiki olives** are hand picked from December to January from 3000 olive trees on 150 acres of land in the kalamata region of southern Greece.

The hot climate of that area, the **ideal altitude of 400 meters** and the **calcareous terrain** are particularly favourable for the cultivation of olives.

Only organic fertilizers and no pesticides are used. The extra virgin olive oil is processed in an **ecological certified oil mill**, in **cold extraction** and sold unfiltered.

This organic Olive Oil has a **very low acidity** (up to 0.3) and is **fruity & light in taste**.
